FOR IMMEDIATE RELEASE

Incredible Tutor™ Update Version 9.7

Austin, Texas—August 9, 2005—Sleek Software, a leading K-12 test preparation company, is happy to announce the release of the Incredible Tutor™ (IT!®) Update to version 9.7. This offers the same high quality content, tutorial features, and data disaggregation tools as the previous versions. And more.

What's New in this Version?

Math

Several modifications have been made to the Math content resulting in better TAKS-based, grade-appropriate questions, particularly in the elementary school titles. We're constantly viewing our Math content with a critical eye and incorporating the helpful and welcomed input from thousands of our valued customers.

Math evaluations are also underway to see how our existing TAKS Math content will align to the new middle and high school TEKS that have recently been released by the Texas Education Agency. These new TEKS will require implementation in all Texas schools as of Fall 2006. Additions and modifications to the content will be determined over the next several months.

Science

New Integrated Physics and Chemistry questions have been added to the 9-11 Science titles. Also, lessons in the 3-5 Science titles have been modified in both the Incredible Tutor and Manage IT!®, making it easier for users to navigate their way through the lesson lists. The lesson order now matches the most recent TAKS Information Booklets, making it even simpler for teachers to correlate our supplemental tutorial product to their classroom instruction.

Social Studies

Several new U.S. Government questions have been added to our high school Social Studies titles, as well as a few minor modifications.

Location of the Update

All users, including students, parents, teachers, and administrators are invited to download the Incredible Tutor™ Update 9.7. Simply visit this Web site:

<http://www.sleek.com/UPDATE/index.html>.

To update the Incredible Tutor™ or Manage IT!® version 7 or 8, you will need to be current in the Annual Maintenance Agreement program and you'll also need the latest 9.5 CD. Contact Sleek Software if you cannot locate the 9.5 CD or need help installing.

Trial for those who have never tried IT! before

If you want to try the Incredible Tutor™, simply go to www.sleek.com/30 and download your free trial. You can view all of our content for 30 days; after that, the software will automatically expire. And don't forget that our Web-based platform, Satori, will have all of the wonderful abilities and resources of the current Sleek the Incredible Tutor™ titles but will also contain new, powerful, and exciting additions.

About Sleek Software Corporation

Sleek Software Corporation is a Texas-based company founded in 1993, specializing in software to help students perform at their peak on high-stakes standardized tests. Sleek is committed to student success and providing the tools educators need to make learning easier and more efficient. If you would like more information about Sleek Software and the Incredible Tutor, please contact Emily Hovland at 1-800-337-5335.
