FOR IMMEDIATE RELEASE  
**Incredible Tutor™** Version 10.5  
Austin, Texas–August 24, 2006

Sleek Corporation, a leading developer of K-12 test preparation materials, is pleased to announce the release of **Incredible Tutor™** Version 10.5. This release contains new titles, including the highly anticipated Science title for Texas middle school students.

### **New Features**

#### **New Warm Fuzzies**

In this release, we've updated all of our Spanish and English titles so that the Warm Fuzzies have new art and sounds. This update complements the Animated Warm Fuzzies that were included in version 10.0.

#### **Math**

Grades 1-11 Math (Texas titles): In May 2005, the Texas Education Agency released the modified math TEKS for grades 6-11 to the public. In October 2005, TEA released the modified math TEKS for grades 1-5. According to the Texas Education Agency timeline, field test items that incorporate the recent TEKS changes could appear on the TAKS math assessments as soon as spring 2007. (There are no current plans to create spring 2007 field test items for the tests in grades 1-5.) All teachers in Texas are encouraged to begin teaching the latest math TEKS in August 2006.

Our math curriculum developers evaluated the math TEKS modifications and made sure these changes were reflected in our elementary, middle, and high school math titles. The 10.5 version of **Incredible Tutor™** contains all these changes!

#### **Science**

Grade 6-8 Science (TAKS): We're very happy to announce the release of our **Incredible Tutor™** TAKS Science titles for grades 6 and 7! Now 6<sup>th</sup> and 7<sup>th</sup> grades join 8<sup>th</sup> grade to create the complete middle school package! Each grade contains 53 grade-appropriate lessons with 530 grade-appropriate items. Each grade also includes 15 cluster items, 15 measurement items, and 15 gridded items. These items cover all the assessed TEKS and were created and reviewed by Texas middle school teachers and professional science content authors. The middle school content covers earth sciences, physics, chemistry, and life sciences, as well as numerous items covering laboratory tools, experiments, and safe lab precautions. The items also ask students to read and interpret maps, identify lab tools, calculate using SI units, and much more.

Grades 9-11 Science (TAKS): We've updated the high school science gridded items so that they are presented in the same format as the TAKS test. The software now tells you how far to carry the decimal place in the gridded items.

#### **All other subjects**

The content in all the subjects has been modified, according to your requests and input. If we did implement your request, you should have received an email about the improvement.

#### **New Game Packs**

There are two new **Game Packs** that can be purchased separately and then directly downloaded from the 10.5 CD. Each Game Pack is filled with five fun and educational games that have no time limits and are intended to reward your students for all their hard work. The Flash-based games range from highly educational addition and subtraction games meant to increase math skills, to fun word scramble games, to simple games that have silly sound effects and funny graphics.

**How to purchase Version 10.5**

All existing customers who are current in their Annual Maintenance Agreement program will automatically receive a Version 10.5 CD of **Incredible Tutor™**.

**For those who have never tried Incredible Tutor™ before**

You can order this CD by calling 1-800-337-5335. Or, to download a free 30-day trial of the product, please review the instructions below.

Students, parents, teachers, and administrators are all invited to download a full-version trial of **Incredible Tutor™** Version 10.5. This trial is not a sample or a subset; it contains ALL **Incredible Tutor™** content—reading, writing, math, science, social studies in both English and Spanish—and is aligned to several different states. If you want to try **Incredible Tutor™**, simply go to [www.IncredibleTutor.com/FREETRIAL](http://www.IncredibleTutor.com/FREETRIAL) and download your free trial. After that, the software will automatically expire after 30 days for school users, or 10 days for home users.
